WE ARE LOOKING FOR THE NEXT GENERATION TO JOIN OUR TEAM

Are you technically minded, practically skilled and enjoy working with modern machinery? Are you interested in CNC technology and the latest developments in manufacturing? Would you like to be part of a team of dedicated employees and earn an attractive bonus for outstanding performance? Are you looking for hands-on training with solid foundations and excellent future prospects?

Weingärtner Maschinenbau is an internationally successful company with strong roots in Upper Austria. We offer training that provides up-to-date knowledge of the latest technologies in machining, CNC technology and modern manufacturing.

This high-tech apprenticeship includes the following key areas:

// Training on conventional lathes and milling machines for the precise machining of workpieces
// Professional setup, preparation and operation of CNC-controlled machines
// Learning CNC programming and applying it in modern CNC technology
