

WE ARE LOOKING FOR YOUNG TALENTS TO JOIN OUR TEAM

Are you interested in technology, skilled with your hands, and excited about the latest innovations? Do you want to be part of a dedicated team and earn an attractive bonus for outstanding performance? Are you looking for a solid apprenticeship with great future prospects?

Weingärtner Maschinenbau is an internationally successful company with strong roots in Upper Austria. We offer training that provides the most up-to-date knowledge of the latest technologies in metal technology, machining, CNC technology, material science, and quality assurance.

## METAL TECHNOLOGY

(Main Module: Mechanical Engineering Technology)

**DURATION = 3,5 Years**

In this apprenticeship, everything revolves around metals, machines, and tools:

- // Manufacturing machine components and production equipment
- // Assembling and commissioning mechanical assemblies and machine tools
- // Maintaining and repairing mechanical, pneumatic, and hydraulic systems

Metal technicians are all-rounders due to their diverse training. They work in machine tool manufacturing and operate CNC-controlled machines.

### VOCATIONAL SCHOOL
